

## HEY, THIS IS: LISA

I live in Schwäbisch Hall in Germany.

I'm 18 years old.

A picture of me that I like: on my way home from the women's rights demonstration in Stuttgart... I felt confident going there on my own.

I have most fun when I am on air because I love the thrill and time goes by extremely fast.

Poetry, crafting and hanging out with friends, baking ...

I like most about Schwäbisch Hall the cute cafés and restaurants, the beautiful buildings and parks as well as the huge cultural variety.

I wish I could change the hills in Schwäbisch Hall because I am way too lazy to climb a mountain when coming home from work.

A place where I'd love to travel to is Canada because I would love to explore the nature as well as Montreal.

A social media account I follow and recommend is [nini\\_erklaert\\_politik](#) because she makes professional, political and sometimes funny content.

Empathy would make the world a better place because people would understand and respect each other and the planet.

Spot the made up fact about me:

1. I love trash TV.
2. I have a brother.
3. I dream of being a professional gymnast.

The meme I share the most:
